Guidance on Eligible Costs

Thank you for reviewing and responding to the draft guidance distributed in early February. After several subsequent meetings and conversations, including review by the PSTIF Advisory Committee and PSTIF Board of Trustees, the guidance has been finalized.

[This guidance document](#) is intended to help you and your clients understand what costs we recognize as eligible expenses when tanks are removed or closed in place, or when an assessment is done because a UST has been emptied.

However, we strongly discourage consultants from separating your bills into "PSTIF-eligible" and "PSTIF-ineligible" costs. Doing so typically delays claim payments, and it means your bookkeeping staff are attempting to be PSTIF claims adjusters. Simply bill your client. He, she, or you can then send us a copy of the bill for the entire project and our adjusters will determine what is payable.
