Proposed Change to DNR Rule - UST Cleanups

The MoDNR has published a proposed change to one of its UST cleanup rules. Comments will be accepted at a public hearing on September 13 or in writing if submitted by September 20. We encourage you to review the proposal and provide any comments you may have to the MoDNR. If you comment, we'd appreciate receiving a copy.

The rule was originally written in 1995, when the tank fund was being managed by the MoDNR. The Legislature had passed a law making the fund liable for ~1200 ongoing cleanups of old releases, ("remedial claims"). The Department was afraid there would not be enough money in the fund to pay for all cleanups and published this rule to notify people it intended to prioritize expenditures based on risk.

When management of the fund was transferred to a Board of Trustees in 1996, the rule became obsolete. The Department proposed rescinding this rule in 2013, but did not do so.

The Department now is proposing to amend the rule. To review the proposal, click on the following link, then go to page 2263:
